

Euclid Prime

Euclid Prime is a collection of high-impact, peer-reviewed titles in theoretical and applied mathematics and statistics hosted by Project Euclid. While twenty-one publications are currently included, that number is expected to increase during the subscription year at no additional cost to subscribers.

Features of Project Euclid Include

- searchable PDF article files
- issue-level metadata, including links from each article to MathSciNet (Math Reviews), Zentralblatt MATH, and CrossRef
- COUNTER 2- and SUSHI-compliant usage statistics
- interoperability through the Open Archives Initiative
- full-text searches across the entire collection

Additional Information

Agent and Consortium Discounting and Terms

Agents and consortia will receive a 5% discount on Euclid Prime renewal orders. For new orders, agents and consortia are eligible for a one-time 10% discount. *(New orders are defined as customers who have not previously purchased Euclid Prime, not customers who are new to a particular agent or consortium.)*

Duke University Press will not accept orders without end-user information.

Final prices must be confirmed through Duke University Press before payment is submitted. Incorrect payments will be returned.

Individual Titles Hosted on Project Euclid

Project Euclid provides electronic access to a number of titles not included in Euclid Prime.

The following titles are available through Duke University Press on a title-by-title basis. Euclid Prime subscribers receive a 10% discount on these publications.

Bulletin of Symbolic Logic
and the *Journal of Symbolic Logic*

Journal of Commutative Algebra

Journal of Integral Equations and Applications

Journal of the Mathematical Society of Japan

Rocky Mountain Journal of Mathematics

Tohoku Mathematical Journal
